MENU

In collaboration with Norm Architects, we've taken a new approach to the art of running a design business and created a co-working space where great ideas, beautiful design, powerful concepts and inspiration could flourish and be shared with one another.

MENU's philosophy is simple. We strive to make the world better, less complicated, and more beautiful to wake up to each day. Collaborating with renowned designers the world over within the fields of architecture and design to produce high-quality pieces boasting contemporary Scandinavian aesthetics, we craft objects to be treasured for a lifetime. At MENU, we find clever solutions for modern-day living. We are passionate about creating beautiful objects for everyday use, whether that's an indispensable item of kitchen equipment, a clever floating shelf or an elegant vase that adds the finishing touch to the living space. Striving to work locally with craftspeople the world over as to preserve skills that have been passed down from generation to generation, we create unparalleled design that's steeped in history and celebrates modernity.

Joachim Kornbek Engell-Hansen
BRAND & DESIGN DIRECTOR

At MENU we believe that what is ours is yours too.

This motto was elevated to overall design concept for our newly opened Menu Space - showroom, office and café, located in Copenhagen's thriving Nordhavn, an enclave of creativity and innovation.

Driven to bring hospitality back to its roots by putting the focus on people, our Nordhavn home has demonstrated already how true innovation comes from the inside out by empowering those around us to be authentic and allowing for their talents to shine. We believe that to motivate each other, we need to put the focus on connecting - be it through work, design or engaging with our local community, connecting more encourages both a sense of freedom and a higher purpose. It is this very synergy of co-living, co-working and co-designing, which inspired us to form a connected space that blurs the lines between home, work and hospitality. At MENU, we hope you appreciate the appetites of the next design generation as much as we do, so we would like to take this opportunity and invite you to join us on a journey of exploration, unearthing new ways of connecting, looking brightly towards the future and crafting spaces where contrast is met in harmony.

Jonas Bjerre-Poulsen

Douwes

The wall socket is often a hidden element of the home, as it is widely deemed as unattractive. Douwes Lamp & Socket turns this notion on its head, transforming something seemingly displeasing to look at into something beautiful. Sustainably-produced in porcelain and now available in a light grey hue that also matches the colour of the electrical wire, the hanging lamp and socket is made by hand in the Netherlands, providing electricity and light above a freestanding kitchen-table.

As sockets are often placed in unfavourable places, Lamp&Socket encourages a more flexible way of life for a variety of settings such as private and public spaces, allowing its users – without major interventions - greater freedom of how a room will be used, enhancing the experience for all.

Carrie LED

BY NORM ARCHITECTS

In Denmark, where winters are long and cold, creating a warm atmosphere is a way of life, which our national fondness of candles clearly demonstrates. Hygge is a part of our culture, a word that embodies cosiness and comfortable conviviality, offering a feeling of contentment. It is both the eagerness to create a lightweight, portable lamp as well as a desire to honour hygge that gave birth to the Carrie LED Lamp, which can be easily used as a bedside lamp, in the office (it comes with a convenient USB charger too) or as an alternative to candles on the dining table. This season Menu is adding a burned red and an olive shade shade to its colour palette, giving an all-time favourite a chic update.

Phare LED Lamp

BY STANISLAW
CZARNOCKI

Designed for apartment no. 50 at Le Courbusier’s ‘Cité Radieuse’ in Marseille, the Phare Lamp’s aesthetic was centred on the idea to become a versatile everyday companion; one that could correspond to the landmark’s style and improve its inhabitant’s daily comfort.

Cast Pendants

The Cast Pendant takes its inspiration from functional cast metal objects and the graphic qualities of traditional plumb weights, hanging from a line used by masons and carpenters since Ancient Egypt.

Versatile and naturally assimilating into the décor of any room or forming a sculptural installation by hanging one lamp on its own or clustering several into a striking installation, the Cast Pendant embodies Menu’s philosophy of soft minimalism and quiet tactility.

This season, the lamp is available in a new aluminium colour, adding an industrial yet elegant touch to both commercial and residential spaces, as the Cast Pendant quietly elevates and warms the atmosphere of any room.

BY TOM CHUNG &
JORDAN MURPHY

JWDA Series

The classic JWDA Table Lamp is being overhauled this season, as Menu is launching the lamp in two new versions – a white marble and bronzed brass variety, which is 12% larger than the original, as both the shade and marble-crafted stand is extended in size, and a black powder-coated steel version.

Originally inspired by more archaic oil lamps of the past, the JWDA’s form has been simplified into an organic shape that beautifully blends contrasting elements, whereby the raw and delicate harmoniously meet in one. Casting a muted, soft glow, JWDA comes supplied with a G9 frosted shade. The light can be easily adjusted by hand. Furthermore, this allows its users to select the kind of ambience to be created in a room – whether the lamp is employed on a side-table in the living room, office or as a quiet focal point in the hallway. Its simple silhouette and timeless quality will add a touch of sophistication to the interior, but its functionality and ease of use will ensure that JWDA will become an important part of people’s daily lives and do more than just look good.

TR Bulb is a clever solution for modern city living, inspired by the way people are increasingly becoming urban nomads, moving between cities and countries to pursue careers and life experiences. The first collaboration between MENU and Tim Rundle, TR Bulb is designed to be taken from apartment to apartment – installed by simply screwing it into the pendant sockets hanging in ceiling, no electrical expertise required.

The dimmable LED bulb, with its elegant, spherical form hides the lamp fitting, while the opal glass diffuser creates an even, harmonious glow, preventing glare. The accessories in the series are likewise driven by the need for portability – so the wall bracket can either be wired in, or hung from a nail like a picture, with a cable plugged into a wall socket.

Tribeca Series

The Tribeca series is a mix of lamps pendants and chandeliers, inspired by New York in the 1930s. The feature, in combination with the elegant details and the industrial feel, makes a Tribeca lamp a retro-chic piece of art. The Tribeca Collection was born as the first product design after relocating Søren Rose’s studio from Copenhagen to New York back in 2011.

Stone Lamp

Though perfectly suited as a lamp, Stone Lamp provides more than enlightenment to your home. Stone Lamp can be placed anywhere and exudes a delightful ambience in the room. The intention of Norm Architects was to create a soft cosy light with the same effect as candles, which could be placed in any corner of the home to create a nice atmosphere. Stone Lamp is available in two variants, a grey smoke-tinted glass shade on a stoneware base and an opal glass top on a raw sand coloured ceramic base.

Conic Table Lamp

Practical, yet friendly and playful... Through an exploration of geometry and asymmetry, the Conic Lamp from the bright talent of Thomas Bentzen sports a cone-shaped shade in painted metal, cocked at a pleasingly jaunty angle. Thomas Bentzen's work ranges from tableware to interior design, from furniture to industrial design.

BY THOMAS BENTZEN

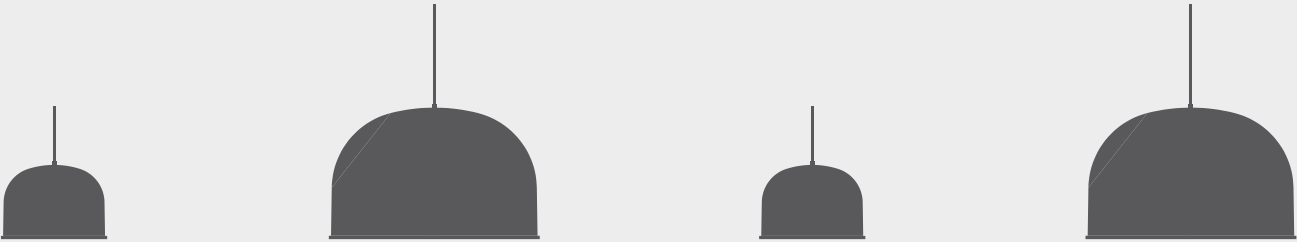

GM 30 Pendant

GM Pendant Series

It is used everyday, therefore it deserves to be beautiful as well as practical. That was the philosophy of pioneering designer and architect Grethe Meyer (1918-2008), a trailblazer for women in the industry. Grethe designed for the way people live, spending hours watching and analysing before putting pen to paper. The lamp is available in two sizes. Hang one over the dining table, two smaller ones as a pair, or install together in bunches.

The Standard Lamp

Designed with an eye to both beauty and function by one of Belgium’s most talkedabout young designers, Sylvain Willenz, the Standard has all the makings of a modern classic. Its beautiful soft light makes this an ideal lamp for the dining room or on an office table. Its sense of purity and balance make it a pleasure to behold.

Peek Lamp

“A lamp with personality” is how Peek Table Lamp has been described. Jonas Wagell’s quirky yet utterly practical Peek Series began with a floor lamp, created to accompany a sofa he designed. “I find that floor lamps are often big and dominant,” Jonas explains. An antidote to overbearing lamps, he conceived his new lamp to literally “peek” over a sofa or armchair. The proportions have shrunk for the Table Lamp, with a dip in the top of the base for needful things – earplugs or jewellery.

Socket Occasional Lamp

Socket Occasional Lamp represents part of a study exploring the boundaries between minimalist sculpture and practical everyday objects by Danish design duo Norm Architects. A weighty, heavy lamp cast from brass, Socket Occasional Lamp is designed to fit perfectly on the desk, shelf or a nook in the home that needs to be lit. The inserted socket is easily removed, so that – with or without a bulb – the lamp also functions as a paperweight. The lamp is inspired by Norm Architects’ recent work with geometric jewellery. “In our work, we aim for geometrical purity,” the designers explain. “We want to arrive at the maximum expressivity with the minimum of expression. It’s not about designing less of product. It’s about soft, streamlined shapes that invite you to touch them.”

Bollard Lamp

Lighting can be innovative or simple, but rarely does it excel at being both. American designer Shane Schneck strives for both, bridging the worlds of design and technology. The cleverly designed silicone lamp Bollard may look like a simple pendant, but it is in fact four lamps in one. Hang it from the ceiling as a pendant, angle it as spotlight, place casually on shelf or use to beam light up by placing on its foot.

Dancing Pendant

Design is an art of storytelling according to Copenhagen duo Iskos-Berlin, and their Dancing Pendant puts that principle into practice. Exquisite yet with a playful twist, the lamp has the look of a dancer’s pleated skirt caught flaring-up mid-twirl. A partnership between two of Scandinavia’s leading young designers, Boris Berlin and Aleksey Iskos, the studio is committed to sustainability.

Cyclades Vases

Finding its inspiration in the Louvre and moreover, the female idols of the Cycladic culture (a group of islands in the Aegean Sea between 3200-2000BC), the Cyclades Collection consists of a collection of vases in raw and glazed ceramic – a fresh, new take on how to use materials that are often associated with the past. Exhibiting its ancient prowess, while still seeming familiar and modern, the Cyclades Collection acts as a beautiful and contemporary standpoint for all areas of the home, connecting with the user on a more primordial level.

Cast Tea Heater

Encouraging a simpler way of life by sparking a newfound appreciation for the elements, the Cast Tea Heater uses fire to heat your brew, re-contextualising the traditional tea-making process with its fuss-free heating method. Taking inspiration from old cast iron elements on traditional gas stoves, the Cast Tea Heater has been simplified in shape with the gas being replaced by a tea light to keep the tea warm for as long as you wish.

Made of powder-coated steel, the black textured surface and cross shape strikes a fine balance between contemporary design and nostalgia; its simplicity, in harmony with Menu’s deeper ethos to create products with an eternal appeal that endure the changing seasons.

Kettle Teapots & Tea Heater

For those of us who drink tea, the daily pause to put on the kettle and linger awhile with our thoughts is precious. The Kettle Teapot is intended to slot into your tea drinking daily ritual. Its design is mindful of traditional Oriental cast iron teapots, re-interpreted here in heatresistant glass. Kettle Teapot is delight for all the senses – allowing the tea-brewer to feast on visual and aroma of tea. The ‘tea egg’ is placed in the centre of pot to hold the leaves. Raise the egg by its silicone string for a perfectly brewed cup every time.

The tea heater is designed to accompany the kettle teapot, and will keep your brew warm for hours with a tealight.

Mindum Shoe Horn

Throughout history there are countless examples of shoe-horns whereby the handle is elaborately embellished, tarkly in contrast with the clean utilitarian look of the actual ‘horn’ end. Ideal to be hung on a wall, it will be at arm’s length from where shoes are put on in the hallway of a home. Minimal, elegant and comfortable to hold and use, the Mindum Shoe-horn’s function is to elevate the experience of putting on shoes with ease and a touch of flair.

Afteroom Coat Hanger

Inspired by the same design philosophy which pivots around simplicity and honesty within the Afteroom series, the Afteroom Coat Hanger also draws its references from Bauhaus and Modernism. The coat hanger is a simple yet sophisticated hanging system for coats, clothes or accessories and is easily fixed to the wall, with all screws hidden to compliment the minimalistic and clean aesthetic.

Afteroom Coat Hanger, Small

Pivoting simplicity and honesty – defining elements of the Afteroom Series - the Afteroom Coat Hanger draws its references from Bauhaus and Modernism. A hanging system for coats, clothes or accessories that can be easily secured to any wall (with screws being hidden to further compliment the minimalist feel), a ‘less is more’ aesthetic defines the Afteroom Coat Hanger as much as the rest of the series.

The existing version of the coat hanger can now be expanded to further configurations, as the large ‘dot’ features a new, bigger design, while the smaller ‘dot’ sees its size being decreased to that of the original. This gives the Afteroom Coat Hanger a spruced up look and a touch of playfulness, as it can be hung both horizontally and vertically, beautifying blank walls in any area of the home by transforming them from stark canvases to pieces of art.

Moon Vase

Moon Vase is an ode to evenings when the moon makes a brief appearance through streaks of cloud in the night sky. Made from bronzed solid brass, the vase’s edges are polished to a shine, inspired by that precious glimpse of moon piercing through the clouds – and the knowledge of the perfect sphere hidden behind. Aleksandar Lazic describes Moon Vase as a ‘study of balance’, its sharp lines offset by the warmth of the brass.

Split Tray

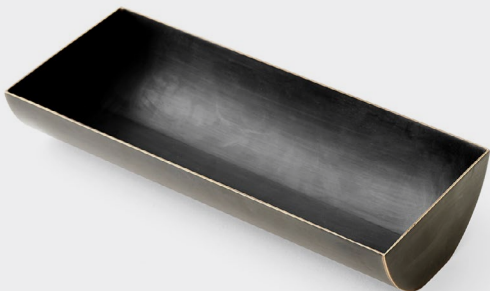

Split Tray draws upon a simple childhood memory – Danish designer Aleksandar Lazic’s recollection of his grandfather chopping logs at the family summer house, splitting firewood with an axe. Aleksandar translates the visual and tactile texture of wood into solid brass, another natural and honest material, lightly grooved and ridged for a truly multi-sensory experience. Split Tray is a perfect desk accessory to hold pens and essentials – or use to serve delicious treats.

Balance Candle Holder

Balance is a modern interpretation of traditional candlesticks carried in centuries past to illuminate the path ahead. Designer Frederik Alexander Werner deconstructed the classic portable candlestick, stripping it back to its essence.

The result is a striking candleholder, modern and minimal, with sculptural beauty – intended to be just as eye-catching when not in use. Brass was chosen for its warmth, the edges polished to create a synthesis between past and present, contemporary and antique.

Glow Hurricane

Inspired by vintage brass oil lamps traditionally used on boats by Danish sailors, Glow Hurricane is a functional and elegant candle holder. The softly rounded round top in white opaline glass glows beautifully when lit, casting any room in the warmth of Scandinavian ‘hygge’. Sitting atop a solid bronzed brass base, the glass top also lends the candle holder the character of a lamp. Perfect in indoors, in the garden... or aboard a boat.

POV Circular Candleholder is a light, smart and playful design.
Beautiful on its own and stunning as graphical patterns on the wall.
In the movies the Point Of View is right where the camera is aiming.
The eye of the viewer. And depending on that point of view, things will
change – settings, stories and the way we interpret things.

And if you move around the different designs and shapes in the POV
series, you'll also notice that your view alters the object. From some
angles they will seem like flat graphical drawings and as you move
around them suddenly the graphic lines float in mid air.

Échasse Series

The Échasse series combines the classic elegance of a traditional glass vase with a playful, light expression. The word échasse is French for stilts – and this round-bottomed vase is anchored to the table by four slender legs that resemble stilts. The vase takes inspiration from test tubes in laboratories, and like the original the Échasse has a classic drop-like shape, constructed from coloured glass that gives the vase a unique expression. Échasse vase is available in small, medium and large.

A new addition to the Échasse series is theÉchasse Bowl, wich combines the elegance of a traditional glass bowl with a playful and light expression, created by four slender brass legs that elevate it into the air.

BY ANDERSSSEN & VOLL

Troll Series

The idea behind Troll Vase started as a study of the properties of glass – examining how the intensity of colour changes depending on the thickness of the material. The result is a vase featuring a dynamic change of thickness throughout, from a solid coloured base to a thin transparent, bubble-like top.

Troll takes its name from a painting by the famed Norwegian artist Theodor Kittelsen, depicting a mythological water spirit, Nøkken, rising from the dark waters of a forest pond. Available in four sizes, and three colours.

Wire Series

The inspiration for this charming and decorative series came while Kasper Rønn and Jonas Bjerre-Poulsen were visiting a Japanese-inspired garden in L.A. The garden had custom-made standing and hanging displays with flowers and light. Together with Japanese trees and small fountains it transformed the garden into a beautiful new kind of Art Deco style. Mix and match between the three varying heights, two colours options and Marble Top, Plant Pot or Oil Disc to create your own tableau variations for either indoor or out.

BY NICK ROSS

Darkly Mirror
Afteroom Counter Chair

Darkly Mirror

Darkly Mirror is an exploration of the history of human beings’ relationship with the reflected image. Some historians believe that the earliest mirrors may have been small ceramic bowls filled with water used during the late Stone Age.

The fact that no specific evidence exists to support the theory fascinates designer Nick Ross, whose Darkly Mirror for MENU takes inspiration from these ceramic bowls. “That it cannot be proven adds to the object’s mystery. Is this a new object, or an old one reinvented? I wanted to take this notion and create a modern object which questioned its possible past and its relation to ‘the self’.”

Hover Bowl

The starting point for the marble Hover Bowl was an interest in the idea that there is something inherently fascinating about a heavy object that floats or hovers in the air. In such a manner, this simple and refined bowl has been designed to trigger just such a fascination.

Curved on both sides, the shape gives the bowl a weightless look – almost as if it is floating. A strong contrast is evoked between the heavy marble and Hover Bowl’s expressive light shape. The versatile bowl can be used in your daily routine for multiple purposes.

Pepe Marble Mirror

Marble Mirror is a heroic, beautiful object for everyday use. The design is iconic and the mirror is made to last a lifetime. Designers Studiopepe are obsessed with precious materials, like marble, that gain in beauty over the years. “We believe that a beautifully designed product should last almost forever.”

Monuments Magazine Holder

The magazines we buy and the books we read tell the world about our taste. Let yours speak volumes. The sleek, sharply designed Monuments Magazine Holder puts our reading habits and intellectual curiosities on display as artwork.

Its plinth-like base of two identical blocks of marble imbues the holder with a monumental, architectural feel. The project aims to elevate the magazine holder – a piece of furniture that rarely receives the aesthetic attention it deserves.

Stem Vase

Stem is a modern reinterpretation of vases in the traditional sense, intended to put the focus firmly back on the plant. The design is as subtle as possible, stripped back to show off the beauty of a single bloom or leaf.

This unexpected vase exhibits plants in an almost scientific manner, making everything – from tip to stem – visible to study and admire. Stem is made from light, refined brass to counterbalance its simple and sophisticated silhouette.

Circular Bowl

The German designer Alexa Lixfeld engages in designing extraordinary items to “build an economy of the special”, as she phrases it herself. Circular Bowl is a great example of how she can turn something as simple as a bowl into something spectacular. Use Circular Bowl for colorful salads, beautiful fruits, still life displays or just as it is – a distinctive and decorative piece. Circular Bowl is made from beautiful cloudy alabaster which will vary from piece to piece.

With its Scandinavian simplicity and purity, New Norm Dinnerware became an instant bestseller in 2012. The series started life as a commission, designed by Norm Architects for the opening of the Copenhagen restaurant Høst.

New Norm Dinnerware is manufactured at a stateof-the-art factory specializing in porcelain for restaurants and hotels. Each piece is burned twice at 1,400 degrees for maximum strength and exceptional long-lasting durability. The dinnerware is finished with a special glaze that gives the porcelain its elegant, watercolour-like texture.

Stackable Glasses

So special you will want to use them everyday, these mouth-blown glasses work for daytime, evening, guests and solo evenings curled in front of the fire with a whisky. Their slender shape makes them a pleasure to hold and drink from. The glasses also stackable, making them incredible practical.

Wave Trivet

Wave Trivet is a simple, sculptural trivet to protect table tops from heat, cold and liquids. Its dynamic graphic form is inspired by the appearance of an electromagnetic spectrum wavelength space, or put more simply, it's an interpretation of a heat wave pattern. Designed by up-and-coming Nowegian design studio Noidoi, Wave Trivet is constructed from durable cast iron, with an integrated cork base to maintain grip on the table.

Wine Breather, Deluxe

Adding 10 times more oxygen to your wine in under two minutes, it's little wonder that Wine Breather Deluxe is an award-winning bestseller. Simply press the decanter on to the top of an opened bottle of wine and flip it over so the wine pours into the decanter. You can serve the wine directly from elegant carafe, or tip it upside again to serve from the original wine bottle.

Wine Breather

Open a bottle of wine, place Wine Breather over the bottle-neck and flip it all upside down - the wine will run through the decanting unit and into the big surfaced carafe for perfect aeration. Flip it all around once more to get the wine back in the original bottle, pour it and taste the advantages of a wine with 10 times the oxygen.

Bottle Carafe

The Bottle carafe is pleasant to the touch and doesn't drip. Its minimalistic and classic form design starts out as a bottle. It takes water to truly enjoy wine – preferably served in a carafe that looks good on the dining table, does not drip, and from which it's easy to pour. The Water Bottle is of a size which will easily fit into the fridge door; and thus you'll always have nicely cooled water ready for serving. A simple and elegant carafe made from blownglass.

BY NORM ARCHITECTS

The Bottle Grinders are not your typical salt and pepper grinders. The form, shaped more like a bottle, cleverly tricks the user to engage with the design in a playful and experimental way – and the powerful ceramic mechanism encourages even further experiments as it tackles a wide range of spices and grains, seeds and dried fruits. Bottle Grinders are easy to operate, fill and clean.

Antipode Candle Holders

Candles are a Scandinavian way of life. For centuries we have used them to keep our homes cozy during the long, cold, dark nights of winter. The Antipode Candle Holder is a modern interpretation on classic Scandi candleholders. A stylish and practical system, Antipode consists of symmetric pieces of varied heights and diameters, that can be turned to form different combinations at different heights. Made from solid brass.

Ava Hanger

Striving to elevate a humble everyday object, the Ava Hanger – exploring the possibility that a hanger can be an object of beauty. Ava reinterprets the classic triangular hanger by its combination of materials, one version made from black powder-coated steel, with a brass hook – and the latest addition made from white powder-coated steel, with a steel hook.

SPACES

Blur Boxes

Useful and beautiful, Blur storage boxes add a little poetry to everyday life. Minimal in design, the containers are simple, subtle and exceedingly pleasing to hold and to use. The blur is created inside the box, with gentle two-tone colours creating a soft, unreal effect.

My Spot

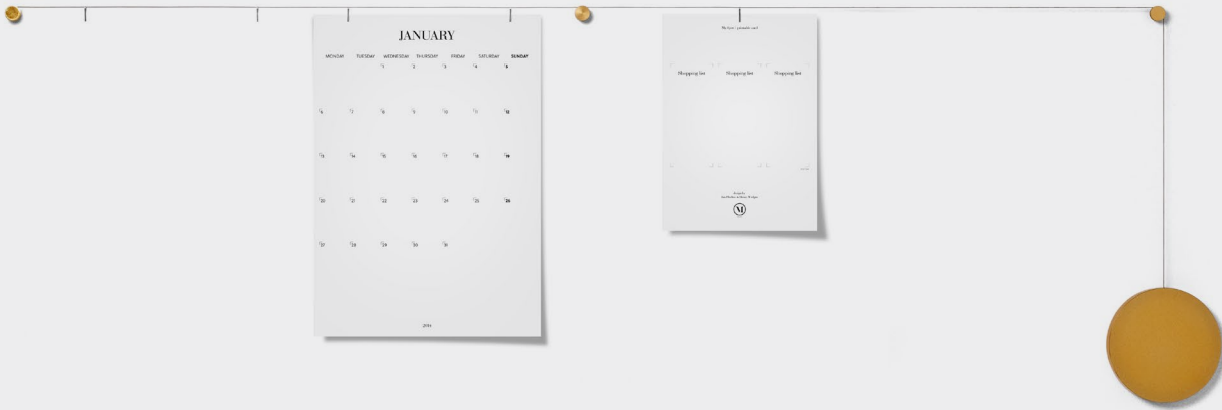

Think of My Spot as a washing line for inspirations, ideas and important information. Fix it to the wall and use to curate a corner of your space with post-cards and art. Or take a practical approach and hang it with calendars, schedules, messages and reservations. My Spot hails from the hugely talented Czech design studio of Jan Plechac & Henry Wielgus, two of our favourite young designers.

Cylindrical Series

The design is based on a simple cylindrical body from which various items such as vases, trays and containers. Each item fulfils a concrete function. The individual items also express sculptural decoration and form families. The graphic / glazing of the objects refer to the hollow spaces of vessels. When filling up the hollow spaces (e.g. with water) the graphic emerges.

Sweeper & Funnel

Winner of the Wallpaper* Design Award in the “Best Fireside” category, Sweeper & Funnel is so simple it’s a wonder no one thought of it before. The ash wood sweeper slides out of the funnel to reveal a hole, so dust and ash can be poured neatly into the trashbin. Ingenious!

Now he has applied that principle to shelving: "The corner is a natural starting point to organise our thoughts and also our objects." The larger corner forms a base shelf, with the medium and small elements creating dividers. Endlessly versatile, use Corners on a desk, fix to a wall or simply place in the corner of the room.

Sometimes inspiration comes in the unlikelyst of places. The idea for these floating shelves came to Norwegian design duo Gridy when they spotted shelf fungus growing out of a tree. Use as bedside shelves, in the living room to display your favourite things or in the kitchen to put herbs stylishly within reach.

NEPAL PROJECTS

Nepal Projects is a humanitarian initiative established by MENU and put into action by Danida, a Danish NGO. Through supporting local craftsmanship and nurturing traditional skills in Nepal, we hope to generate more jobs and opportunities and create a positive impact on the lives of local communities. Over half of Nepal’s population lives below the poverty line, earning as little as USD 1.25 a day.

Every year, an estimated 12,000 to 15,000 women and girls are trafficked out of Nepal. The majority are taken to India, South Korea and South Africa, where they endure unimaginable living and working conditions and become vulnerable to sexual abuse and exposed to life-threatening diseases. At MENU, we believe in making design matter for the greater good. Nepal Projects unifies our Scandinavian design heritage with the rich history of Nepalese arts and crafts. To bring this project to life, we collaborated with three Nepali producers, all of whom were carefully selected based on a mutual passion and desire to see change in their society, while diligently operating with fair trade principles.

Teddy

Teddy is born from passion and love, using one of Nepal's most age old techniques, felting. Created from 100% wool, each piece is uniquely crafted by hand, meaning no two pieces are ever the same. Stripped back to its most simplistic form, the pure material and minimalistic shape leave plenty of room for the imagination to thrive.

Your new bedtime companion, Teddy promises to bring peaceful, cosy moods into your home.

Printed Scarf

Cashmere and block prints are genuinely Nepalese. An old technique involves carving an artwork into a block of wood. The small irregularities in the print are a result of the craftsmanship which produces the rare luxury of an actual hand-printed scarf.

OFFSET SOFA

A contemporary sofa, understated yet statement-making, Offset is the result of research into ‘balance’ by Norm Architects. The studio wanted to create a sofa as simply as possible while embracing a set of paradoxes: making it substantial yet delicate in appearance, architectural yet inviting and homey. In the studio, the designers experimented with offsetting – playing with proportions, narrow armrests versus a thick generous seat, supported by four stubby legs. The clean-lined boxy shape is inspired by minimalist art, gently softened for a welcoming expression and maximised for comfort.

Extra charge of 10% for CMHR foam, UK requirement

COM OPTIONS

Customers own material is available upon request.

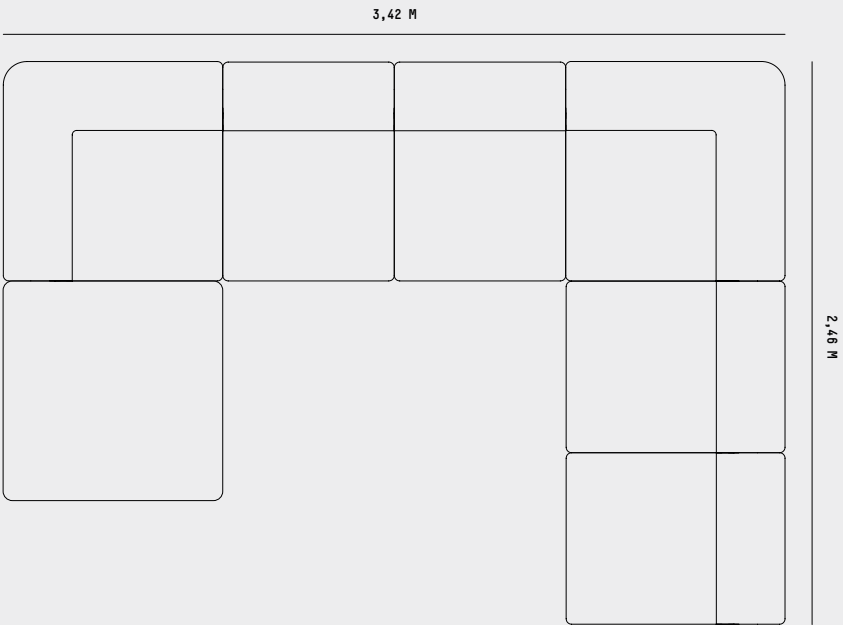

LEAD TIME

6-8 weeks

See page 264-267 for full upholstery program and colours.

EAVE MODULAR SOFA

Inspired by architecture Eave Modular Sofa takes its name from “eaves” – the lower edges of the roof that overhang a wall. The sofa’s distinctive detail is its internal “eaves” – curved upholstered armrests that lend the sofa its expressive character. A perfect blend of style and comfort, Eave is a generous sofa that will encourage owners to relax. The seating angle is also ideal for offices or public spaces, enabling the user to sit actively engaging with work. Figure out your own configuration to suit your space.

INSPIRATION

Our modular system let you customize upholstery and colours by choosing between a wide range of high quality textiles in crisp Scandinavian colours. The modules can be united just as you see fit and you can always add – or subtract – modules later, all our Modular systems are designed to stay with you for many years to come.

UPHOLSTERY PROGRAM

Our products are priced in three different categories – 1, 2 and 3. Prices will vary depending on the type of upholstery you choose. Please reach out to us if you have any questions or concerns.

Extra charge of 10% for CMHR foam, UK requirement

COM OPTIONS

Customers own material is available upon request.

LEAD TIME

6-8 weeks

See page 264-267 for full upholstery program and colours.

SPACES

SEPTEMBRE SERIES

The Septembre Series was specifically designed to harmonise both style and comfort without compromising on either. Refined bent wood arms and a sturdy backrest provide structure to the sofa, while snug seating cushions offer maximum comfort and a touch of homeliness. A sofa of beautiful proportions, Septembre has been carefully crafted featuring a high backrest; its finesse taking centre stage whether standing freely in a room or when creating a more intimate and enclosed area in a larger expanse. With a stately aesthetic and good looks, the Septembre Series exemplifies contemporary living, proving that style needn’t be sacrificed for comfort.

GODOT SERIES

BY ISKOS-BERLIN

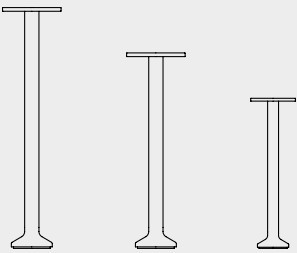

Godot is a comfortable and generous sofa series comprising 2- and 3-seater sofas as well as an armchair. The inner “spaces” of the sofa are designed in sizes allowing for a comfortable seating position without limiting the freedom of movement and the freedom to stretch your legs.

The exterior vertical and rectangular surfaces allow for easy and natural placement of couches along with and close to walls as well as positioned centrally in the room; and, likewise, the feasibility of placing the furniture side by side as well as back to back. This feature makes Godot very usable in private as in public spaces.

GODOT 3-SEATER LIGHT GREY

TAILOR SOFA

BY RUI ALVES

After fondly recalling memories of his grandfather’s favourite tailor shop, Portuguese designer Rui Alves returned to the past to find inspiration for crafting the Tailor Sofa. The idea was to celebrate the sofa in all its forms with a structured yet light shape and a sturdy wooden frame, designed for daily use. Now available in a new material – smoked stained oak - the frame and its foam-shell-covered upholstery are formed with an impressive attention to detail, as wooden joints carefully frame the round shape of the sofa, giving the piece a handmade look and feel. As past and present blend in perfect synergy, the Tailor Sofa is to be cherished for many years to come; its appreciation for the past serving as a gentle reminder for the skills and expertise it has been crafted with, as both are passed on from generation to generation.

Tailor Sofa has been awarded Furniture Of The Year, Bo Bedre Design Awards 2017

HARBOUR CHAIR

Conceived during the design process for MENU’s new creative destination Menu Space located in Copenhagen’s thriving Nordhavn (Northern Harbour) area, the Habour Chair is the result of fulfilling a variety of needs (among others) comfortable versatility. Designed specifically for Menu Space, the dining chair is ideal for anything from restaurants, conferences, offices, or in the comfort of one’s own home.

A hybrid space that mixes office, showroom, café, co-working and event space in One, Menu Space required a chair that could suit a range of purposes. Finding a perfect balance between geometry and organic shapes, the shell’s armrests bend outwards for maximum support, as does its high backrest, providing not only comfort, but also an elegant and slim appearance that will appeal to any discerning design aficionado.

Synnes Dining Chair

The making of the Synnes Dining Chair initially began in 2013. This season the elegant piece receives a revival, featuring a newly upholstered version that's crafted to the highest standards, utilising premium textiles. Uniquely produced by pinning a sheet of veneer to the seat with dowels in order to craft the backrest, the procedure creates a structurally strong backrest, which concurrently also reduces the amount of material used.

A modern take on the traditional dining chair, the new version sees the turned wooden legs replaced with tubular steel, while upholstered fabric provides a touch of softness. Visually lighter than the original, the updated Synnes Dining Chair puts the emphasis on cushioned comfort, elevating a comfortable chair to higher heights without sacrificing its visual authenticity.

Afterroom Chairs

BY AFTERROOM

The beautifully minimal Afterroom Chair pays homage to functionalism and the Bauhaus school of art. A MENU bestseller since its launch in 2012, the chair is the work of Afterroom, a young Stockholm studio founded by designers Hung-Ming Chen and Chen-Yen Wei. The Afterroom Plus Chair comes with the additional feature of a wider backrest and a luxurious upholstery of both seat and backrest. The result is a blissfully simple chair that embraces minimalism and clean lines without compromising on comfort.

UPHOLSTERY PROGRAM

Our products are priced in three or four different categories, within textile or leather. Prices will vary depending on the type of upholstery you choose. Please reach out to us if you have any questions or concerns.

Extra charge of 10% for CMHR foam, UK requirement

A minimum order of 4 chairs is required when the upholstery is done in leather.

LEAD TIME 8-10 weeks

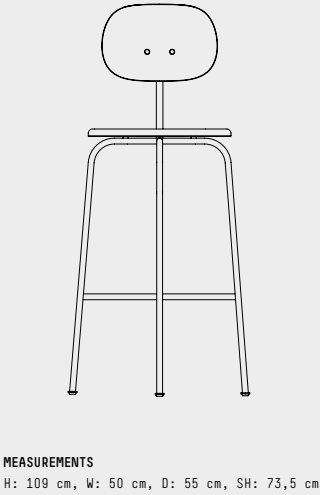

COM OPTIONS

Customers own material is available upon request.

See page 264-267 for full upholstery program and colours.

Snaregade Family

Originally Norm Architects designed a table especially for Bjarne Hansen – the CEO and founder of Menu. The table was intended for Bjarne’s living room at home. While at it, Norm Architects also manufactured a few tables for their own studio. These tables have been in use ever since. Besides being the ideal office desk, the rectangular variant works perfectly as a dining table. The oval variant, great for the kitchen, would also be equally suited as a meeting table or in the dining room.

No No Tables

NoNo Table is characterised by lightness. The elegant and slim legs provide the full support for the solid glass tabletop that beautifully reflects its surroundings. The modern materials emphasize the clean and stylish aesthetics. And the simplistic yet eye-catching design makes NoNo a great addition to any living area. NoNo is the result of an encounter between two Scandinavian studios, Note Design Studio and Norm Architects.

Plinth Series

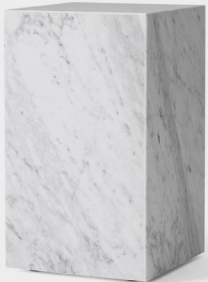

Over centuries, the plinth has been a much mused-over object. With this project Danish studio Norm Architects set out to rethink the uses of the plinth and to reveal the natural beauty of marble. The result is a series of podiums with multiple uses in the home, office or showroom.

Plinth is available three sizes. The low rectangular version is ideal as a monumental coffee table. The cube makes a perfect bedside table or side table. Use the third Plinth in the traditional manner – as a podium on which to display a bust, sculpture, art books, plants or a lamp.

Turning Table Black Ash

Turning Table

German designer Theresa Rand was experimenting with ways of combining a table and storage when she stumbled upon the idea of a lid that opens by rotating it around one of the legs. The result is elegant, unpretentious and utterly addictive (show it to guests and they will be opening and shutting Turning Table for hours). “My design is quite functional,” says Theresa. “But I also think it’s important that the objects we surround ourselves with have a warm and poetic part.”

Align Daybed

Daybed respects the history of Scandinavian design while adding designer Anita Johansen’s own stamp of quiet sophistication. Made from classic Nordic materials, it consists of two parts: a simple ash frame and soft upholstered seat. We love Daybed for its purity and calm, a perfect welcome in the hallway or waiting room, or providing additional seating in the living room. Daybed is a striking achievement for Anita, who graduated from The Danish Design School in 2012.

Stick System

A shelving solution designed to meet the needs of the young generation – mobile and on the move – Stick System can be extended and adapted to suit any space it inhabits. Cleverly designed with maximum attention to detail, it is the creation of exciting Czech duo Jan Plechác and Henry Wielgus.

“We wanted to create a clever and aesthetically beautiful design solution for a modern generation: Stick System can be extended and adapted to fit different spaces. It enables multiple options, which makes it a pragmatic interior solution to today’s increasing needs”

Zet Storing System

BY KASCHKASCH

ZET is a smart shelving system with a light, airy, and minimalistic appearance. The whole system consists of two components only: the wooden u-shaped shelves and the metal frame construction. By assembling those two parts, you are able to build several different formations in order to achieve the expression you prefer – right now and going forward. ZET is produced in high quality materials and the stabilising system provides a firm stability.

Afteroom Bench

The Afteroom Bench is an evolution of the celebrated Afteroom Chair, constituting the same concept - a tribute to Bauhaus and Functionalism. By reducing the amount of material to a minimum, the aesthetic appearance is enhanced to a maximum. The combination of a side table and bench creates a highly practical and stylish piece of furniture to suit multiple environments.

Afteroom Lounge Chair

The lounge chair came about by combining inspiration from two iconic chairs of early modernism: the ‘Thonet Bentwood Armchair’ by Michael Thonet and the ‘Spanish Chair’ by Børge Mogensen. The combination of these two classics resulted in something new – just as elegant as the Thonet and as comfortable as the Spanish Chair. The chair is not only a wonderful piece of design. It is also extremely comfortable and, moreover, provides you with a majestic posture.

Afterroom Tables

BY AFTERROOM

The Afterroom Counter, Café and Bar tables are yet a supplement to the Afterroom Chair. The design pays homage to Bauhaus and functionalism combining minimalistic clean lines with good quality materials, to create an aesthetically stunning outcome. The tables come in three sizes, to compliment the corresponding Afterroom Chairs, with a silk smooth laminate finish for added luxury. Also available in regular laminate.

Yeh Wall Table

An unusual side table, the minimalistic Yeh Wall Table stands on two legs – balanced by a section of thin tabletop that bends upwards at a 90-degree angle against the wall for support. The two slender tubular legs are slightly angled to provide additional stability. Taiwanese designer Kenyon Yeh was inspired to create the table after walking past cheerleaders practising strength exercises close to his studio in Taipei.

One them was in a seated position, resting his back against a wall. The Yeh Table, with its clean lines, mimics that pose. Use as a side-table for books, plants or a lamp. Lightweight and portable, the Yeh Table is a perfect for homes with limited space.

Legs available in three different heights, 32, 26 or 20 cm. Choose between black or chrome.

Septembre Coffee Table

The Septembre Coffee Table makes an elegant addition to the sofa series, which is now also available with a marble top. Crafted using a warm grey, Portuguese marble stone called Ataija Azul, the table's softer, curvaceous shape has been uniquely constructed with its upper part sinking into the deeper structure of the table rather than resting on top of its legs. Making a confident statement with its contrasting materials and unorthodox take on the traditional table, Septembre Table adds a touch of timeless sophistication and slick polish to the interior.

Norm Floor Mirror

In the spirit of Scandinavian simplicity, the two Danes behind NORM, Jonas Bjerre-Poulsen and Kasper Rønn, always strive to cut to the bone. To find the simplest possible solution without forgetting the beauty of the shape or the details – all in order to reach a point where nothing added nor subtracted will make the product better.

Kaschkasch Floor Mirror

There is nothing more rewarding than a product that presents both a clever innovation and an eye-catching design. Kaschkasch Floor Mirror is just such a product. Ideal for homes with limited space, the full-length triangle-shaped mirror slots neatly into corners leaving a small footprint. Both casual and utterly stylish, it is the creation of young German designers Florian Kallus and Sebastian Schneider, who work together as Kaschkasch Cologne.

Copenhagen Tray
Table

Copenhagen Tray Table

Is it a tray or a table? The versatile, multiple-use Copenhagen Tray Table combines the functionality of a traditional tray with the elegance of a side table. Designed by Norm Architects for use in the home, office, even the garden, the table is portable and slender enough to slot stylishly into any corner of the room.

Constructed from lightweight powder-coated steel with handles to be easily moved, use Copenhagen Tray Table as a storage solution in the kitchen to display dinnerware. Put it to work as modern drinks trolley in a living space, or stack with pot plants in the garden.

Meet Bench

The Meet Bench takes inspiration from the traditional piano bench. A versatile, multi-use piece, its name refers to the two stabilising tubes that elegantly join under the seat. The bench is also just big enough for two people to sit together – and ‘meet’. Use Meet Bench in the hallway, as a chair in front of your writing desk or in the bedroom.

It also works as an occasional table on which to display books or a lamp. Timeless in character, the design is based on a contrast, the opposition between its masculine, industrial legs and the expressive embracing curves of the seat.

Spaces

As we take a more interconnected, holistic approach towards hospitality by connecting these varying realms into unified spaces, we have the power to move people and make them thrive in dynamic environments that inspire. These new types of urban multi-spaces motivate us to gather together in thriving environments with the intention to create shared value for the benefit of the community both inside and out of MENU. Serving as a catalyst for new ideas, these multi-spaces and the pieces that fill them -be it an elegant floor lamp or marble plinth - trigger innovative concepts and encourage new ways of living, working and relaxing. Ultimately, these spur us on a journey of self-discovery, reconnecting us to what truly matters. What will connect you?
